# Tackle Diversity & Inclusivity Challenges with Data

Detailed D&I data for all of the protected characteristics at your fingertips. We can help you benchmark at every level – from a nationwide audit, to a specific job role. Allowing you to identify and solve key challenges.

- Benchmark every role and team
- Measure all of the protected characteristics
- Compare diversity against competitors
- Track throughout the hiring journey

61%   39%

Diversity insight that empowers you to support under-represented talent communities

Benchmark every role
The platform will benchmark the diversity of your candidates vs all talent within the specified search parameters. Allowing you to obtain pinpoint data and embed D&I deep in your hiring process.

Measure at every stage
Track protected characteristics throughout the entire hiring journey. Allowing accurate diagnostics of where challenges are and how to address them.

Strategic diversity deep dives
Optional deep-dives in particular markets to help you investigate core roles or issues.

Check out the competition
See how competitors are performing with their D&I in individual teams or across their organisation. Learn from those who are the most successful

Capture data for all protected characteristics
We measure all of the protected characteristics including gender, ethnicity, age, sexual orientation & disability

BOOK A DEMO

> " Our engagement with Acolyte on diversity & inclusivity has been a great success. The CEO, CIO and Chief People Officer love the insight that Acolyte offers and we can now measure our own performance against a proper standard in the industry "

Deborah Finlayson
Head of Talent & Organisational Development
